

SILVER Z-CAP™

The Jantzen Audio Silver-Z Cap™ offers yet another layer of luxury and performance compared to the Superior -Zap.

Neutral tone balance and a smooth sound with no harsh additions to the sound.

HIGHLIGHTS

Double foil super PP capacitor

Featuring extremely high quality German made foil, metallized with Aluminum and Zinc particles

The luxury version of our Superior Z-Cap featuring pure silver terminal leads instead of copper

Nitrogen filled instead of dielectric fluid, offering more foil per capacitor and eliminating risk of evaporation

TECHNICAL INFORMATION

- Zinc / Aluminum Metallized Polypropylene
- Voltage rating 0.10 μ F – 0.33 μ F: 1200V DC or 600V AC
- Voltage rating 0.47 μ F – 22.00 μ F: 800V DC or 425V AC
- Non inductive construction
- Terminal leads are made from pure silver (1 mm in diameter)
- Capacitance tolerance : +/- 2%
- Voltage rating: 800 - 1200V DC
- Loss factor: 1K 0.00002 10K 0.00001
- Non-polarized capacitor
