

General disclaimer regarding the application of Jantzen Audio Products

- All products delivered by the companies Jantzen Audio Denmark and Polink Wilkowo Sp.Z.o.o, are designed and produced specifically for application within the field of audio.
- We do not in any way guarantee the successful application of our products in other industries or purposes, other than those specifically related to passive loudspeakers (home HiFi) and other audio related fields of application like amplifiers or active speaker systems.
- For professional / public audio kindly contact us for a dialogue about application, as we do not guarantee our products for use in PA systems or other professional / public audio applications per default.
- If our products are used in other industries / fields of application outside the realm of audio, the customer bares the full responsibility of testing such applications and we do not offer any returns or refunds, if products are purchased without prior testing by the customer.
- Kindly contact us if you are interested in our products for application outside the aforementioned field of application.
