

JANTZEN AUDIO

Audio Technology 3-Way Classic (AT-3WC)

Designed by Troels Gravesen

“The ambition here is to present a statement in modest sized 3-way classics, no less.

I’ve had the opportunity to work with both 4 and 10 Ohms version of the 23152 bass driver from AudioTechnology, and I’ve been impressed every time; in particular when the voice coil is made from aluminum reinforced kapton, improving transient response (high Qm).”

Speaker Units (Drivers):

**Audio Technology
23I52-2006-SDKA
Woofers**
(comes with DIY kit)

**Audio Technology
15H52-0613-SDKAM
Mid-range units**
(comes with DIY kit)

**Scan-Speak
D3004/604010
Tweeters**
(comes with DIY kit)

Crossover component options (kit levels):

Level 1:

Inductors:

- C-Coils
- Wax Coils (foil inductors)
- Litz wire wax coils
- Air core & iron core wire coils

Resistors:

- Superes resistors

Capacitors:

- Tweeters: Amber Z-Caps

- Midrange: Alumen Z-Caps

- Other: Standard Z-Caps, Cross Caps & Electrolytic caps

Crossover component options (kit levels):

Level 2:

Inductors:

- C-Coils
- Wax Coils (foil inductors)
- Litz wire wax coils
- Air core & iron core wire coils

Resistors:

- Superes resistors

Capacitors:

- Tweeters: Alumen Z-Caps

- Midrange: Alumen Z-Caps

- Other: Standard Z-Caps, Cross Caps & Electrolytic caps

Crossover component options (kit levels):

Level 3:

Inductors:

- C-Coils
- Wax Coils (foil inductors)
- Litz wire wax coils
- Air core & iron core wire coils

Resistors:

- Superes resistors

Capacitors:

- Tweeters: Silver Z-Caps

- Midrange: Silver & Superior Z-Caps

- Other: Standard Z-Caps, Cross Caps & Electrolytic caps

What else is included in the DIY kit?

Damping Materials included in the DIY kit as standard:

Damping felt
Polyester damping cloth

Accessories included in the DIY kit as standard:

Binding post terminals
Straight ports (bass reflex)
PFTE insulated silver infused cables for internal wiring
Solder tag strips
SuperFix component fastening glue
Round head wood screws

General information:

- The prices mentioned in the pricelist are excluding shipping costs
- The “closed schematic” DIY kits can only be purchased directly from Jantzen Audio
- Crossover schematics & values for the “closed” DIY kits are not sold separately
- All crossover components must be purchased
- Drivers, Hypex, damping materials and accessories are optional (some exceptions)
- We do not offer pre-assembled crossovers

Customization:

- Only the capacitors can be upgraded (when applicable)
- We do not offer to downgrade any components to a lower grade than included in the existing kit version / levels

Cabinets:

- Cabinet materials are not included
- We do not offer readymade cabinets

Build instructions include:

- A printed instruction containing, the component values list, the crossover schematic, a crossover component placement drawing and the wiring chart
