JANTZEN AUDIO

Troels Gravesen's Introduction:

Ekta-7741, the successor of the popular Ekta-GRANDE (a more direct successor than the Illuminator 7751).

Now with Illuminator drivers delivering deep and precise bass and ultra transparent midrange and treble.

Time-aligned drivers allows simple crossover, and the use of Alumen-Z capacitors ensures low distortion and no smear of musical timbre.

Two tweeter versions to choose from, with either or beryllium or fabric dome.
