

Jenzen Next

Designed by Troels Gravesen

“The Jenzen NEXT comes at roughly twice the price of the Jenzen SEAS ER kit, so what do we get for the money?”

To my ears we get an overall more refined sound with reduced coloration and subjectively reduced distortion as these excel drivers can handle a bit more power before detail smearing becomes apparent.”

Can be built with either the T29CF002 or T25CF001 tweeters.
