JANTZEN AUDIO

Troels Gravesen's Introduction:

QUATTRO mkII is the updated version of the original QUATTRO based on the JA-8008 HES driver (now discontinued).

It is now updated with the new JA-8008 HMQ driver. There were only a few changes to the crossover and only to the low-pass section of the bass driver.

With the new JA-8008 HMQ driver the performance is further increased by a more tight bass and enhanced midrange transparency.

IMPORTANT!

Please read our sales terms to read about how the DIY kits are delivered and other important information.
