## Troels Gravesen's Introduction:

Build a powerful 2-Way stand-mount from the revered Scan-Speak Revelator midbass units and Illuminator tweeters.

The 7" Revelator 18W is probably the easiest driver on the market when it comes to simple crossovers, due to its sliced paper technology.

The D3004/660000 tweeter has become the benchmark for all 1" soft domes.

### **IMPORTANT!**
