

SB Acoustics MW19 Monitor (SBA MW19 Monitor) Designed by Troels Gravesen

"The MW19 is a potent 7" driver and delivers a firm and solid bass.

The midrange is smooth and extremely transparent without accentuation or depression of any midrange area.

Due to the low point of crossover dispersion in upper-mid/lower-treble is excellent and provides a wide listening window and as always, the TW29 tweeter delivers an astonishing treble."

Can be built with beryllium dome tweeters (TW29BN-B) or fabric dome tweeters (TW29RN-B).

Speaker Units (Drivers):

**SBA
MW19P-8
Woofers**
(can be ordered with DIY kit)

**SBA
TW29BN-B
Beryllium dome tweeters**
(can be ordered with DIY kit)

**SBA
TW29RN-B
Fabric dome tweeters**
(can be ordered with DIY kit)

Crossover component options (kit levels):

Level 1:

Inductors:

Cross coils (foil inductors)
Air core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Alumen Z-Caps

Midrange: Superior Z-Caps

Crossover component options (kit levels):

Level 2:

Inductors:

Cross coils (foil inductors)
Air core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Superior Z-Caps

Midrange: Superior Z-Caps

What else is included in the DIY kit?

Damping Materials included in the DIY kit as standard:

Damping felt
Polyester damping cloth

Accessories included in the DIY kit as standard:

Binding post terminals
Port tubes (Bass Reflex)
