

SEAS Curv

Designed by Troels Gravesen

“Spending more than a year on Jenzen speakers, handling a small 8 liter speaker is quite a relief.

Only real challenge is placing the crossover in the small rear compartment, but more on this later.

Ever since the launch of the CURV cone material, reviewed in Voice Coil, October 2006, I’d wanted to try out a drivers made with this cone material.”

Speaker Units (Drivers):

**SEAS
U16RCY/P
Mid-woofers**
(Can be bought with DIY kit)

**SEAS
29TFF/W
Tweeters**
(Can be bought with DIY kit)

JANTZEN AUDIO

Crossover component options (kit levels):
