

## 8008 Center mkII

Designed by Troels Gravesen

*“With the number of TQWT/DTQWT kits sold, the wish for adding a center speaker is becoming more frequent, as surround fans want a speaker to complement their (mostly) DTQWT systems.*

*Most good center speakers are – at least – 3-way.”*

*This center speaker has been on the to-do list for a long time and started as a “classic” horizontal d’Appolito set-up.*
