

Ellam 98 mkII

Designed by Troels Gravesen

"This speaker presents an easy-to-listen-to soundstage with good balance of basic notes and overtones.

The 9800 tweeter delivers a smooth treble and adds to the transparency of the soundstage.

For the size of the bass driver it gives you a surprising amount of bass information, and the stepped baffle allowing true LR2 filter leaves no trace of transition between the drivers."

Speaker Units (Drivers):

**Scan-Speak
15W/8530-K00
Mid-Woofers**
(Can be bought with DIY kit)

**Scan-Speak
D2904/980000
Tweeters**
(Can be bought with DIY kit)

JANTZEN AUDIO

Crossover component options (kit levels):
