

Poor Man's Strad

Designed by Troels Gravesen

"This speakers should have an Indian name and be called "Comes With a Room" (-like "Dances With Wolves") because this is what wide baffled speakers do.

They kind of bring in their own room. There's virtually no edge diffraction due to the wide baffle and the way these speakers recreate music in a room is special and to put it short: I like it!

They can play strings, woodwinds and rock'n roll like few speakers of this size and from a 91 dB/2.8V sensitivity they do well with small amps."

Speaker Units (Drivers):

**SEAS
CA22RNX
Woofers**

(can be ordered with DIY kit)

**SEAS
MCA15RCY
Mid-range units**

(can be ordered with DIY kit)

**SEAS
27TFFC
Tweeters**

(can be ordered with DIY kit)

Crossover components options (levels):

Level 1:

Inductors:

Wax Coils (foil inductors)
Air & iron core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Superior Z-Caps

Midrange: Superior Z-Caps

Other: Cross Caps

JANTZEN AUDIO

Crossover components options (levels):

Level 2:

Inductors:

Wax Coils (foil inductors)
Air & iron core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Cross Caps

Midrange: Cross Caps

Other: Cross Caps

What else is included in the DIY kit?

Damping Materials included in the DIY kit as standard:

Polyester damping cloth
Egg crate foam

Accessories included in the DIY kit as standard:

Binding post terminals
Port tubes (Bass Reflex)
PFTF insulated silver infused cables for internal wiring
Jantzen Supra cables for internal wiring
Solder tag strips
SuperFix component fastening glue
Round head wood screws

General information:

- The prices mentioned in the pricelist are excluding shipping costs
- The “closed schematic” DIY kits can only be purchased directly from Jantzen Audio
- Crossover schematics & values for the “closed” DIY kits are not sold separately
- All crossover components must be purchased
- Drivers, Hypex, damping materials and accessories are optional (some exceptions)
- We do not offer pre-assembled crossovers

Customization:

- Only the capacitors can be upgraded (when applicable)
- We do not offer to downgrade any components to a lower grade than included in the existing kit version / levels

Cabinets:

- Cabinet materials are not included
- We do not offer readymade cabinets

Build instructions include:

- A printed instruction containing, the component values list, the crossover schematic, a crossover component placement drawing and the wiring chart
