

SB Acoustics 61-NAC (SBA 61-NAC)

Designed by Troels Gravesen

“Frankly, I never thought I’d do a speaker from all aluminium (cone) drivers.

My most recent experience dates back some 10 years and the midbass was harsh on my ears.

Later the manufacturer modified the drivers (cone curvature) for better performance, but I never got around to doing them again.

When I first set up this SBA driver and turned on the MLS signal from the CLIO I thought I’d done something wrong – or was suffering temporary loss of high-frequency hearing.

Well, I hadn’t.”

Please note:

We only offer the black cone version of the mid-woofers (SB17NBAC35-4)

Speaker Units (Drivers):

**SBA
SB17NBAC35-4
Mid-woofers**
(can be ordered with DIY kit)

**SBA
SB26ADC-C000-4
Tweeters**
(can be ordered with DIY kit)

Crossover component options (kit levels):

Level 1:

Inductors:

Air core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Superior Z-Caps

Midrange: Superior Z-Caps

Crossover component options (kit levels):

Level 2:

Inductors:

Air core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Superior Z-Caps

Midrange: Superior & Standard Z-Caps

JANTZEN AUDIO

Crossover component options (kit levels):

Level 3:

Inductors:

Air core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Standard Z-Caps

Midrange: Standard Z-Caps

What else is included in the DIY kit?

Damping Materials included in the DIY kit as standard:

Damping felt
Polyester damping cloth

Accessories included in the DIY kit as standard:

Binding post terminals
Port tubes (Bass Reflex)
PFTE insulated silver infused cables for internal wiring
Solder tag strips
SuperFix component fastening glue
Round head wood screws

General information:

- The prices mentioned in the pricelist are excluding shipping costs
- The “closed schematic” DIY kits can only be purchased directly from Jantzen Audio
- Crossover schematics & values for the “closed” DIY kits are not sold separately
- All crossover components must be purchased
- Drivers, Hypex, damping materials and accessories are optional (some exceptions)
- We do not offer pre-assembled crossovers

Customization:

- Only the capacitors can be upgraded (when applicable)
- We do not offer to downgrade any components to a lower grade than included in the existing kit version / levels

Cabinets:

- Cabinet materials are not included
- We do not offer readymade cabinets

Build instructions include:

- A printed instruction containing, the component values list, the crossover schematic, a crossover component placement drawing and the wiring chart
