

JANTZEN AUDIO

SB Acoustics 761 (SBA 761)

Designed by Troels Gravesen

“Experience the natural and dynamic sound of 1st order filters from SB Acoustics Satori drivers.

Easy cabinet construction and minimal crossover from premium components with aluminum foil capacitor for tweeter section.

Featuring 7½” and 6” drivers in a 2½-way offers potent bass from a modest floor-stander.

90 dB sensitivity and a benign impedance makes an easy load for even smaller tube amps.”

Speaker Units (Drivers):

**SBA
MW19P-8
Woofers**
(Can be bought with DIY kit)

**SBA
MW16P-8
Mid-range units**
(Can be bought with DIY kit)

**SBA
TW29RN-B-8
Tweeters**
(Can be bought with DIY kit)

Crossover components:

Level 1:

Inductors:

Litz wire wax coils
Air core wire coils

Resistors:

Superes resistors

Capacitors:
