

JANTZEN AUDIO

SEAS 3-Way Classic mkII (SEAS 3-WC mkII)

Designed by Troels Gravesen

“This mkII features a stepped baffle allowing a simpler crossover and better sounding speaker with improved driver integration.

The use of CA22RNY bass driver in replacement of CA22RNX increases efficiency and makes an even easier speaker to drive.

Given the size, this is a speaker that might please a lot of people and annoy a few – if any! Enjoy!

Basics: 40 litre, 3-way speaker. Sensitivity 91 dB, impedance 8 ohms. Requires 15-20 watt minimum.”

Speaker Units (Drivers):

**SEAS
CA22RNY
Woofers**
(Can be bought with DIY kit)

**SEAS
MCA12RC
Mid-range units**
(Can be bought with DIY kit)

**SEAS
27TFFC
Tweeters**
(Can be bought with DIY kit)

JANTZEN AUDIO

Crossover component options (kit levels):

Level 1:

Inductors:

Air & iron core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Superior Z-Caps

Midrange: Superior Z-Caps

Other: Cross Caps

Crossover component options (kit levels):

Level 2:

Inductors:

Air & iron core wire coils

Resistors:

Superes resistors

Capacitors:

Tweeters: Standard Z-Caps

Midrange: Standard Z-Caps

Other: Cross Caps & Electrolytic Caps

What else is included in the DIY kit?

Damping Materials included in the DIY kit as standard:

Damping felt
Polyester damping cloth

Accessories included in the DIY kit as standard:

Binding post terminals
Port tubes (Bass Reflex)
PFTE insulated silver infused cables for internal wiring
Solder tag strips
